

LEAD PRODUCT DESIGNER

AI-native product designer with 8+ years of experience designing 0→1 retail ecosystems, AI shopping, enterprise cloud and Ads platforms and crafting experience strategies that shipped design-led business outcomes.

Work experience

Walmart Inc | Senior Product designer

Mar 2023 - Present

- Leading AI-powered shopping experiences for Sam's Club, creating 0 → 1 products for shoppers and store associates.
- Led the design for E2E associate experience for auto vertical driving an **8x increase in associate efficiency, 24% increase in top-line sales and 100M+ in productivity savings**. Collaborated across PM, engineering, operations and business teams to orchestrate AI copilots and agents for sales, inventory, and service management.
 - Created the **experience vision** for the **shopper experience** for Auto purchases, check-in and services. As a strategic thought partner to business and product leadership, pitched and aligned the team on top priorities for **3x revenue growth**.
 - Conducted user research, vision and design workshops, created design systems and drove ally compliance across multiple products.

Wish | Product designer

Dec 2020 - Mar 2023

- Design Lead - Incentives:** Led the design for shipping incentives such as free gift program, Discounts and Rewards features in the Wish app resulting in 19% increase in buyer conversion.
- Design lead - Merchandising:** Designed the Item Discovery and Holiday Deals experience leading to 8% GMV and 32% engagement increase. Introduced merchandised collections, category experiences, campaigns, and high-trust entry points such as Wish check program and Trusted brands.
- Designer - Wish Local:** Designed the E2E consumer experience for Wish Local - a ship-to-store model that allowed shoppers to browse and pickup from small businesses.

Google | UX Research Associate

Sep 2019 - Dec 2020

Led generative and evaluative research to study content/ad publishers’ needs and behaviors and develop actionable user insights. Drove critical product decisions and informed design strategies for Google Ads platform features such as ad cohort reports (0→1), policy center (0→1), ad testing features, ad format selection & user segmentation.

Nutanix | UX Design Intern

May 2018 - Jul 2018

- Re-designed the virtual machine creation flow of Nutanix ‘Prism’ which increased developer efficiency by 80%, cost efficiency by 20% and user delight. Created a wizard based approach, designed personalization and price transparency features.
- Conducted UX research to discover key user segments needs, developed user stories, concepts, and delivered visual mocks via iterative usability testing.

Cardekho | Founding UX Designer

Jul 2016 - Jul 2017

As the founding UX designer for Cardekho (India’s largest car portal), re-designed the browse and discovery experience, improved cross-platform product usability and personalization. Establishing key user personas and critical journeys through UX research and spearheaded the creation of design system and visual guides

Amazon | UX Design Intern

May 2015 - Jul 2015

Designed a 0→1 shopping experience for Amazon Easy (Project UDAAN) - a fully assisted shopping service for emerging markets. Conducted ethnographic research and concept testing with users in tier-2/3 towns in India, created the design strategy and delivered a hi-fidelity prototype to product and business teams.

Education
